hearing aid effectiveness evaluation; articulation performance score; hearing-impaired elderly; 9411850

human/automatic speech production/comprehension, sentence accent theory extension, discourse representation theory basis; 9408163

Hungarian vowel harmony, child acquisition, speech production/ perception relationship; survey; children, adults; 9404974

immediate serial letter recall, phonological similarity effect, articulatory control process; silent mouthing; empirical data; undergraduates; 9409746

intonation perception/production; age, hearing loss; empirical data; normal/hearing-impaired children aged 5:0-6:5/9-12; 9409314

Italian supralaryngeal vocalic gestures' left-to-right weakening, polysyllabic evidence; spectrographic analysis; Florentine/northern speakers; 9405053

Korean intersonorant lax stops' realizations, perceptual/acoustic data discrepancy, largyngeal features' status revision; 9410529

labial force control measurement, maximum-force-dependent protocol; normal young adults; 9411828

language production treatment approach comparison, imitation vs focused simulation; empirical data; multiply handicapped male aged 6: 9411978

Laurenzana (Italy) dialect's articulatory variants; speaker's age/education; 9411584

lingual coarticulation, /kl/ sequences, temporal/spatial aspects; electropalatographic/air flow data; native Catalan/English/French/German/Italian/Swedish speakers; 9401820

mental syllabary access; syllable frequency; word/symbol association tasks; native Dutch speakers aged 18-34; 9406989

nasal place assimilation/stricture cross-linguistic analysis, placedependent (continuant) feature account; 9410516

natural speech modeling, neural network use, problems/solutions; 9406545

neural network design, automatic speech recognition, articulatory movement tracking; 9411252

oral airflow pressure, Korean consonant coproduction context; empirical data; native speaker; 9406492

otitis media with effusion/phonological impairment, therapy considerations; 9406555 perceptual center location, kinematic event link; experiments; 9406468 plosive articulation, Moroccan Arabic/Fez dialect, articulatory force/acoustic correlates; radiocinematographic/spectrographic pronunciation data; 9406464

polargram-electromagnetic articulatory (EMA) measures, technique applications/comparisons, German data; 9409284

postvelar articulation typology, Interior Salish (North Amerindian)

prosodic structure/coarticulation interaction; experiments; 9401815 prototypes/phonetic category identification, consonants; speech judgment tasks; English-speaking undergraduates; 9406581

quantal theory/articulation, electromagnetic articulography/ electropalatography/acoustic data account comparisons; articulation distance/stop measures, pilot study data; 9409273

reading-disordered/dyslexic/attention-deficit-disorder children, reading skill relationship, articulation/phonological processing considerations; empirical data; 9401979

respiratory/aerodynamic events, self-generated speech context; air flow measures; adult stutterers, nonstutterers; 9401969

second-language comprehension/production models constraints/issues; 9402442

sentence production timing; experiments; native-Dutch-speaking undergraduates; 9411802

spectral peak-sibilant production, electromagnetic articulography/ acoustic data comparisons, quantal theory of speech production; sibilant production; native French speaker; 9409254

speech articulation, German/English comparisons; speech rate; electromagnetic/electropalatography measures; English/German speakers; 9409288

speech breathing, Parkinson's disease patients; kinematic/acoustic/air pressure measures; 9411844

speech communication research progress reports, encoding/decoding focus, Italian/Icelandic data, cochlear implant patients; 9411809 speech disfluency, electronic measurements, fluent vs disfluent speak-

ers; 9409438
speech movement recording, video-based system, Sweden; 9401900
speech movement velocity profiles shape; speech rate; speaking tasks, autophonic scaling procedure; native English speakers; 9411778

speech perception, McGurk effect; visual influences, articulatory movement; listener judgments; undergraduates; 9400149

speech perception/focused attention relationship; experiments; 9411874

speech processing/articulation, speech synthesis/channel theories examination, central nervous system role; 9409262

speech production changes; physical management, diagnostic therapy; parental intervention; girl aged 3; 9402017

speech production characteristics; empirical data; closed-head-injury patients; 9404114

speech production control, monitoring/regulation/feedback roles; 9411838

speech production coordination/coarticulation, task-dynamic model application; 9401818

speech production's articulatory component, phonological representation; 9400773

speech production, fluency-evoking conditions, aerodynamic variables modification; airflow/intraoral pressure examination; nonstutterers; 9411912

speech production, normal/delayed auditory feedback conditions; speech confidence/gender; discourse analysis; high-/low-confidence male/female speakers; 9401914

speech production, prosodic/syllable structure representation, psycholinguistic hypotheses evidence; 9404121

speech production/constraints, articulation/coarticulation, prosody; 9406504

speech production/perception theories, alphabet-related biases, psycholinguistic enquiries; 9406467

speech signal description, speech recognition, acoustic-to-articulatory inversion; empirical data; 9411859

speech technology, articulation-based approaches use, glottal source generation model application; 9401881

speech/language problems; longitudinal study; 3-year-olds with neonatal intensive care histories; 9403787

spelling improvement; syllabic co-articulation; experiments; dyslexic 3rd graders; 9403838

stop consonant cluster coarticulation; electropalatographic data; Catalan/American English speakers; 9401833

stop consonants production/acoustics, mechanical/aerodynamic/acoustic event models; 9403709

stutterers'/normal speakers' pauses, quantity/duration/placement comparison, syntactic/semantic role; empirical data; 9403755 stuttering causes, organic vs functional factors, classical vs operant conditioning, symptoms/disfluencies categories; 9409420

stuttering, electromyographic levels/durations; speech production tasks, measurements; adult male stutterers/nonstutterers; 9411846

stuttering, neurological causes, pharmacological/speech-therapeutic approaches, right-brain ischemic patient case study, radiologic/clinico-phoniatric analysis approaches; 9409384

stuttering/dysfunctional auditory system correlation, auditory test survey; 9409373

time-domain articulatory speech synthesis mapping technique, super network modeling method; 9411825

vocal fold vibration/speech signal recording; case studies; diplophonic patients; 9401894

voice source acoustics/glottal flow modeling, research review; 9401859 vowel formant structure/shift, perceptual aspects; 9403687

vowel production velopharynx position, muscle activity assessment; electromyography; normal adults; 9406537

vowel production/linguapalatal contact; jaw opening position; palatometrics; normals aged 7; 9401893

vowel production/perception, inventory size/structure effects, English/ Spanish data; 9410477

vowel voicing source; adjacent consonant context; inverse filtering, glottal waveform parameterization; German/English/Swedish/French/Italian speakers; 9401827

word span/recognition, free recall; presentation rate, articulation rate, word length; experiments; American English speakers; 9400134

word-medial vs -initial consonant accuracy, medial consonant heterogeneity; nonsense word production task; African-American children aged 3-8; 9411810

working memory/articulation rate; 1-/2-/3-syllable words; tests; children with spastic diplegic cerebral palsy; 9404089

Articulation Disorders

abnormal speech articulation/psychomotor retardation/subcortical dysfunction, major depression; acoustic measures; Parkinson's disease/depressed patients; 9403844

age-related articulatory deficits, feedback mechanisms/anatomical changes, tooth loss effects; 9401891

articulation disorder, prosodic difficulties, phonological analysis; case study; ataxic dysarthric male aged 30; 9409432

articulation disorders treatment, visual feedback use; case study; cleft palate patients; 9411836

clinical dysarthria test procedures, Parkinson's disease/multiple sclerosis patients; subtest comparisons; speakers aged 25-83; 9409379

dysarthria case survey/therapy, Italy; 9403791 dysarthria cases' speech therapy results, Italy; 9406741

dysarthria, listeners' perceptions, intelligibility; speech rating; males; 9401964

dysarthria, palatal lift/EPG-feedback therapy outcomes; acoustic/ perceptual data; brain-damaged male aged 18; 9409374

early otitis media effects, children's speech/language/preliteracy skills; empirical data; children aged 4-5.5; 9411854

glossectomy speech, consonant production evaluation; articulation test; glossectomees aged 48-68; 9409508

intelligibility improvement; general dysarthric vs specific lip tension reduction therapy; tests; dysarthric male aged 62; case study; 9411981

language impairment degree/physiologic recovery determination, posttraumatic brain-injury; empirical data; severely brain-injured female aged 18; 9406652

peer-directed communicative interactions, System for Augmenting Language use; discourse analysis; mentally retarded males aged 6-20; 9406704

phonologically normal/disordered child speakers, lingual compensatory ability; experiment; 9411916 segmental timing measurement; electropalatography; normal/speech-

disordered speakers; 9401921

speech tempo, Huntington's disease patients; acoustic measurements; 9411891

speech therapy, velopharyngeal incompetence, nasal obturator use; case study; male dysarthric aged 23; 9409526

trisomy 8 clinical description, speech-language characteristics; tests, clinical observations/measurements; boy aged 5:11; case study; 9406609

unoperated cleft palate patient studies analysis, problems/weaknesses; 9411908

vowel articulation assessment/remediation; verbal tasks; female aged 4:11: 9409413

Articulatory Phonetics

acoustic/articulatory phonetics, electropalatographic data reduction, contact index method description; CVC sequence repetitions; Catalan speaker; 9409241

American English fricative (s), articulatory paths analysis, connected speech; measurements; female speaker; 9411807

Carstens Articulograph articulatory magnetometer (EMMA) system, x-ray beam comparability; speech repetition measures; 9409281

Catalan palatal articulations [n]/(j); electropalatographic data analysis; native speakers; 9410524

children's speech duration/variability relationship; age; CVC word repetition tasks, spectrographic measurements; children aged 5/8/11, adults; 9409260

click sounds, world languages inventory, articulatory/acoustic features;

coarticulation models, physical/phonological interaction, configurative features evidence; 9406523

consonant voicing cues/native language relationship, vocalic duration/ F1 offset, English CVC production; acoustic/perceptual measure-ments; native Arabic speakers; 9406981

consonantal tongue-palate contact patterns, voicing/vowel environment effects; electropalatographic procedure; American English-speaking adults; 9411785

controlled phonetic realizations/phonological representations, cross-linguistic voicing evidence; 9411793

dynamic/articulatory phonology, biomechanical/linguistic structures; 9404956

electromagnetic articulography (EMA) research methodology, tilt detection/correction, interindividual comparison; 9409299

electromagnetic articulography (EMA) systems/measurement technique combination, speech physiology; 9409287

electromagnetic articulography, coil placement, vowel intelligibility; 9409280

electromagnetic articulometer-speech movement recording, Haskins Laboratories' experiences; 9409289

electromagnetic midsagittal articulometer (EMMA) system, error detection/correction, lip/jaw/tongue measurement; 9409283

electromagnetic midsagittal articulometry (EMMA) description, data collection concerns; 9409297

electromagnetic transduction system comparisons, articulatory speech movements; tilt correction; empirical data; 9409282

English as a second language sound system acquisition, first language transerence/interference, markedness theory; 9410058

Ewe simple/double labial/velar stops comparisons; electromagnetic articulography application; 9409291

Finnish/Italian geminate consonants, articulatory phonology framework; 9410488

foot-level shortening, syntactic/articulatory constraints influence; experiments; 9403684

foreign-language pronunciation, auditory perception role, French/ English/Spanish vowel examples; 9409237

Hindi breathy voiced phoneme acoustics, noise offset emphasis; CVC word-pair repetitions, spectrographic measurements; adult female native Hindi speakers aged 23-40; 9409239

International Phonetic Alphabet, standard articulation description/ diagram; 9411808

Klamath (Penutian) phonology, laryngeal features/segments analysis; 9402885

Numic (Uto-Aztecan) phonological patterns analysis; 9410468 oral reading phonetogram contours; masking noise; empirical data; dysphonic/normal males/females; 9403674

phonetic articulation plotting, standard format lack, chart template proposal; 9406491

polargram-electromagnetic articulatory (EMA) measures, technique applications/comparisons, German data; 9409284

speech database analysis, mu+ system use; 9403255

speech movement velocity profiles shape; speech rate; speaking tasks, autophonic scaling procedure; native English speakers; 9411778

speech processing/articulation, speech synthesis/channel theories examination, central nervous system role; 9409262

speech production/perception theories, alphabet-related biases, psycholinguistic enquiries; 9406467

speech sounds descriptive analysis, normal/abnormal speech, phonetics textbook; 9401830

stuttering-articulatory sequencing, bilabial consonant productions; electromagnetic articulography; Dutch speakers mean age 23;

tongue movement measures; nasals, plosives, stops, fricatives; electro-magnetic articulography; German speakers; 9409294

Artificial Intelligence

artificial intelligence/computational linguistics, cognitive semantics implementation; 9411232

voiced stop consonant production/perception; reading ability; empirical data; 6th-8th graders; 9401919

word's meaning/phonetic motivation relationship, English/French/ German material; 9408149

Conservation (Concept)

deaf children's auditory specialization/cognitive performance interac-tion; right-/left-ear superiority/less than 5 dB difference; conserva-tion/figurative language probes; children mean age 13:7; 9409319

affricate consonant acoustics/aerodynamics model application; acoustic spectra measurement; male/female speakers; 9401839

air pressure control process, consonant production context; empirical data; healthy adults; 9411832

alveolar/palatal consonants articulation; electropalatographic data; Italian/Catalan native speakers; 9401832

American English /r-l/ perception, Japanese learners; empirical data; adults; 9410066

American English flap/tap analysis, computerized electropalatographic data; 9406490

Amharic verbal morphology, default consonant role; 9405400 anticipatory consonant-vowel coarticulation, Italian VCV sequences;

electropalatography; native speakers; 9401817 Arabic emphatic /r/ classification, rural Palestinian dialect evidence;

9410535 aspiration, English lexical phonology, voiceless stops/allophonic varia-tions; voice onset times, consonants; pronounciation tasks; native En-glish speakers aged 19-37; 9402908

auditory memory development changes, unattended speech; age; experiments; 1st/4th graders, adults; 9409710

Bella Coola (North Amerindian) unsyllabified obstruents, B. Bagemihl's moraic licensing proposal refutation; 9407763

bilabial consonants, phonetic contexts, speech motor programming; oral opening/closing actions; adult speakers; 9406526 bimodal speech perception, auditory/visual information integration; experiments; undergraduates; 9401824

British English /r/-/l/ identification; phonetic environment; tests; Japanese bilinguals; 9403749

Canadian English pronunciation, American influence, palatal glide example; 9411302

Cantonese/Taiwanese consonant-vowel co-occurrence restrictions, morpheme/syllable structure constraints, obligatory contour principle analysis; 9407801

Cayuga (Iroquoian) word stress, acoustic-phonetic correlates; 9407767 children's consonant gliding process; facilitating phonetic context; case study; male aged 5; 9411992

Chilean Spanish /ê/ variation, attitudes/perceptions; experiment; university students average age 19; 9401669

consonant articulation; stress, position-in-syllable; x-ray microbeam study: 9405044

consonant capture phenomenon, English syllable structure implica-tions: 9403675

consonant identification, temporal information influence, British data:

consonant identification; empirical data; cochlear-impaired subjects; 9409307

consonant lenition patterns, High/Low German, North/Middle Bavarian: 9411155

consonant singleton errors distribution; Iowa-Nebraska Articulation Norms Project; children aged 3-9; 9411842

consonant string encoding/memory, hemispheric asymmetry; experiments; undergraduates; 9406984

consonant transparency, Iraqw (Cushitic) data; 9405049

consonant visual/auditory recognition; computer-based training system; empirical data; hearing-impaired adults; 9406716

consonantal co-occurrence, modular syllable-related approach; 9404992

consonantal tongue-palate contact patterns, voicing/vowel environment effects; electropalatographic procedure; American English-speaking adults: 9411785

coronal underspecification hypothesis evidence reanalysis/critique; 9400782

Dahalo (Cushitic) phonetic structure description, auditory/acoustic analyses basis; 9406481

Early New High German consonant orthography, Ambraser Haldenbuch evidence; 9406159

electromagnetic articulography (EMA) systems/measurement technique combination, speech physiology; 9409287

electrophysiological/behavioral responses, /r-l/ discrimination; verbal tasks; Japanese speakers proficient in English, native English speakers; 9406960

English as a foreign language word recognition; word-final consonant realization; experiment; Italian students; 9400172

English as a second language, final plosive devoicing; place of articula-tion, vowel height, style, speaker's age; empirical data; Brazilian children/teens aged 8-17; 9400344

English glottal consonants' transparent behavior, children's speech, articulatory/acoustic accounts comparison; observations; English-acquiring children, initial age 1:0; 9400798

English underspecification, dependency phonology framework; 9410465

English velar fronting/consonant palatalization, Russian comparison; 9406471

final stop addition, R. Burling's Maru (Tibeto Burman) analysis, Land Dayak (Austronesian) data support, coronal feature extension/vowels; 9410474

Finnish/Italian geminate consonants, articulatory phonology framework; 9410488

French consonant-linking processes phonological analysis, phonetic evidence; speech rate/monitoring; experiment; native speakers; 9411794

French CV(p) sequences, vowel duration, prevocalic consonant influence; empirical data; French-speaking males; 9406495

French linking/fixed final consonants distinction, moraic theory diffi-culties; 9407829

front vowels/coronal consonants phonology, Maltese Arabic data; 9400778

geminate inalterability evidence reappraisal, prespecification theory account; 9410501

German /R/ allophones analysis, Standard/Lower Rhineland dialects, lexical phonology rule ordering requirement, universal (voice) privateness counterevidence; 9400776

German fortis/lenis distinction's phonetic basis, standard pronuncia-tions; 9409244

Germanic languages palatalized consonants hypothesis, advantages/ counterexamples/research outlook; 9403197

Hungarian /v/ alternations, moraic phonology framework; 9405047 Hungarian loanwords consonant lengthening, rule application; 9405004

Hungarian phonology, transcription/consonant-vowel length; 9405005 Hungarian syllable-initial consonant clusters, autosegmental analysis; 9405041

initial consonants' sound changes, Gan dialects (Chinese), condition-ing/geography/motivation/relative chronology perspectives; 9405985

Italian as a second language, native Chinese learners, pronunciation/ grammatical difficulties; morphophonemic analysis; elementary school children, Rome; 9409995

Kean's markedness theory/A. Rivas's sonority hierarchy comparisons,

syllables/consonants/sonorants/nasals/continuant features; 9404994 Kirundi (Bantu) palatalization, coronal articulation/feature geometry approach: 9400762

Korean consonant clusters, order asymmetry, principles & parameters approach: 9407761

Korean phonetic profile, passage transcription basis; 9406477

Korean stop lenition phonetics/phonology; speech samples; male native speakers: 9401838

Lama (Gur) sonorant-stop change, strengthening rules analysis;

Latgalian tribal language consonant subsystem evolution; 9411139 lexicon/morphology acquisition, consonant speech apraxia; verbal tasks, longitudinal observation; language-impaired French speakers aged 4/5; 9409397

Macedonian Greek aspirate reflexes, affrication/voicing explanations; 9408526

Mandarin nasal deletion, phonetic variation, phonological/stylistic/ social/lexical constraints; 9402909

Modern Irish verbal affixation/initial consonant mutation, unified syntactic treatment; 9407910

Modern Standard Arabic/English consonant systems comparison, functional phonology framework; 9405809

Negerhollands (Danish West Indies) etymological consonant cluster preservation, Kwa substrate explanation; 9406048

neutralization/defective distribution distinction methodology, Spanish

New Caledonian Mainland languages tonogenesis, geminate consonant origin/development processes; 9405017

nonnative English speakers' syllable-initial consonant cluster production, previous theories' refutation; empirical data; native Japanese/ Korean/Cantonese speakers aged 20-32; 9402435
